

Corporate Social Responsibility (CSR) activities are very important part of culture at **KisanKraft Limited**. In FY 2017-18 we have supported computer education among under privileged children through following projects by a non-profit organization **M/s Computer Shiksha**:

1. Company has funded purchase of 100 Laptop Computers to be supplied to different schools for computer education, based on the analysis by Computer Shiksha of what equipment the schools would require. These computers are benefiting approximately 1,000 students in 10 schools. Following are the picture of schools benefitted under this program:
